

# Vodka VIRACOCHA

Viracocha; creator of the universe, the sun, the moon, the stars, time, civilization and potatoes. After creating man, he walked off across the Pacific Ocean, never to return. It is thought that Viracocha will return in times of trouble. Until he does, you can assuage your troubles with Vodka VIRACOCHA.

Vodka VIRACOCHA is a super premium potato vodka, which spent two months in charcoal beds before being filtered. Vodka VIRACOCHA is produced in our copper column still with 16 plates, using artesian spring water from Los Luceros. It is distilled five times, with cuts made for the removal of the heads and tails.

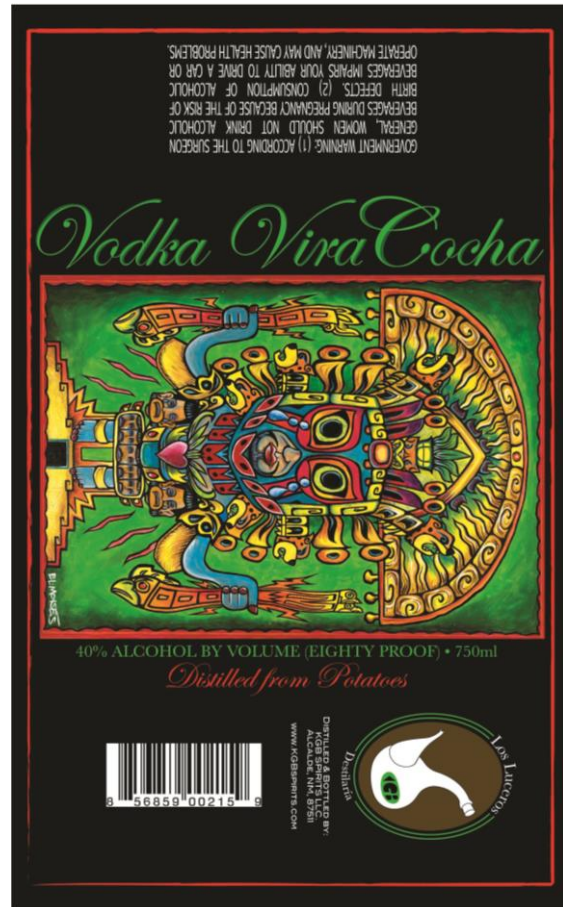

Vodka VIRACOCHA is dangerously understated, with a luxuriant texture and creamy finish.
